More information & directions (location tab) available at [www.pemi.org](http://www.pemi.org)

IDPA or International Defensive Pistol Association provides a straightforward and relatively inexpensive way to test and refine your shooting skills in realistic defensive scenarios. Almost any semi auto pistol (9mm or larger) or revolver (38 Special or larger) will work. You'll need at least two spare magazines or speedloaders, a strong side holster and a magazine or speedloader carrier.

More information and rule book available at [www.idpa.com](http://www.idpa.com)
